\*\*\*\*With less down time, figured at an extra 750 miles per month at \$1 dollar per mile.

# ...WITH ARI LEGACY CUSTOM SLEEPERS

*"This being our first big bunk sleeper purchase, we worked very closely with our sales rep. He took the time to answer all of our questions, both small and large, and even repetitive, in a timely and accurate manner. All phone calls were returned almost immediately, and he kept us up to date at all times during the process and ensured we received pictures on a regular basis to document the process. Overall it was a very relaxing sales experience. All of our dealings with the service dept. have exceeded our expectations. The whole crew there have a way of making us feel like we are the most important customers in their shop every time we are there.*

*One very unexpected, but important, benefit of having all your amenities with you as you drive is just how much more relaxed we are at the end of the day. We had never realized just how much stress there was in worrying about where to park, and eat, and shower at the end of each day. It used to be just part of the job - now, none of that matters anymore.*

*We highly recommend ARI to everyone we meet and are even looking forward to designing our next larger one with them in the future."*

*"I am in my 3rd ARI sleeper now and plan to build another. My experience with both the sales and service departments has been excellent over the years. I am always comfortable getting work done and am confident it will be handled in a timely manner. I transport all across the country for the entertainment industry but no matter where I am with my truck, I'm always at home and have everything I need."*

*"This is my first ARI sleeper and it's amazing. Life is less stressful and more relaxing on my down times. Quality of life is much nicer by having a custom sleeper. I have everything I need in my truck and love the privacy of that. The quality of ARI's product is amazing. The sales rep I worked with on the sleeper purchase was awesome and so helpful guiding me through the whole process. Everything I was told during the build process was spot on. Delivery date was within a couple of days from when I was told it would be finished. I was very impressed by that and grateful. Honesty goes a long way in my opinion. Everyone at ARI are all friendly and so helpful. I haven't really needed the service department for anything but they were awesome with answering questions that I needed answering. This definitely won't be my only purchase from ARI. I'm a customer for life. I look forward to working with them on my next sleeper in a couple more years. Thank you to everyone at ARI that was involved in my sleeper build and purchase."*
